**Maintain eligibility for
warranty coverage in**

**5 easy
steps**

(See back for details.)

Introducing PerformaWise™

To maintain eligibility for warranty coverage:

[1] Users must ensure that all warrantied cable is used exclusively with approved applications, including:

- LED Lighting
- Security Cameras
- Security Devices
- Air Valve controls

[2] All connectivity components used must be from an approved list, comprised of devices from:

- 3M
- AllenTel
- Belden IBDN
- Corning
- Hellermann Tyton
- Hubbell
- Legrand/Ortronics
- Leviton
- Molex
- OFS
- Panduit
- Siemon
- Sumitomo Electric
- Superior Modular (OCC)
- Systimax/CommScope
- TE Connectivity
- Uniprise/CommScope
- US Conec Ltd.

[3] End-point components used must be supplied by an approved manufacturer, such as:

- Cree
- Delta Control
- Igor
- MHT
- NuLEDs
- Platformatics

[4] All products must be installed by “BICSI Certified” or Superior Essex approved designers and installers and field tested with an approved partner.

[5] The warranty application must be completed and submitted to Superior Essex no later than 10 days post-installation.
