

## INDOOR/OUTDOOR LOOSE TUBE

### Introducing EnduraLite™

Robust, **weather** and **sunlight resistant**, EnduraLite™ Indoor/Outdoor loose tube fiber cables are designed for applications that require **transition of optical fiber** between indoor and outdoor environments.\*

## PREMISES TIGHT BUFFER

**Flexible, durable**, and with a **range of fiber counts**, these tight buffer cables are perfect for communicating across the enterprise space.\*

## MICROARRAY LOOSE TUBE

**High performance** in a **small package**, these **microarray breakout cables** are ideal for data center applications where small form factor is critical.\*

## INDOOR/OUTDOOR TIGHT BUFFER

Designed for **maximum utility**, these indoor/outdoor fiber cables can run through an enterprise space or span between premises environments.\*

\*Interlock Armored versions available
